## A new family member of the world of CHROMOJET

admin / PDF / Mon, 02/15/2021 - 13:27

---

Since the beginning of the year 2008 a new CHROMOJET machine is available for the industrial, digital textile printing sector, which enables to cover a vast range of applications.

The **CHROMOJET<sup>800</sup>** reaches high flexibility of printing, and photorealistic prints on carpets are now possible. The producer can decide between spot colors and process colors (CMYK+6). This new machine will prove itself on the mats-, bar mats-, promotion carpets- and exhibition floor covers-markets as well as in many more areas. Currently a printing line is being installed in Deinze/Belgium at S.PriNT NV company.

Besides the carpet industry also the typical textile industry will be supplied by the **CHROMOJET<sup>800</sup>**. The two main applications are Acrylic Mink Blankets and Cotton Terry Towels. Producers have the opportunity to supply their customers with individual small series in every shape and size.

### **Huge reduction of sampling costs.**

Sampling costs can be reduced up to 70% per year.

## **Moeve-Frottana enters the world of Logo- and Promotion-Towels**

Since about 3 months the well-known company Moeve-Frottana GmbH & Co. KG in Grosschoenau (Germany), producer of Cotton Terry Towels, is printing with the **CHROMOJET<sup>800</sup>**. They provide the market with digital printed logo- and promotion towels in various shapes and sizes. The usage of the **CHROMOJET<sup>800</sup>** enables to produce printed towels with vibrant colors and unlimited design variations within shortest timeframes.

Mr. Martin Basset ([info@zimmer-austria.com](mailto:info@zimmer-austria.com)) will be glad to provide you with detailed information on the **CHROMOJET<sup>800</sup>**.
